Tahsin Yazkan

Frontend Developer

Istanbul, Türkiye | +90 5302343777 | tahsinyazkan@gmail.com | LinkedIn | github.com/thsnyzkn

Open to Istanbul onsite/hybrid and remote (Turkey / EMEA / EU / UK / US)

SUMMARY

Frontend Developer with 6+ years of experience building and maintaining production web applications with React, Next.js, TypeScript, and JavaScript. Experienced in developing scalable frontend architectures, reusable component libraries, multi-tenant interfaces, design systems, API-integrated features, and reliable development workflows. Effective contributor to Agile, cross-functional teams, collaborating across product, design, backend, and QA through sprint planning, backlog refinement, and code reviews to deliver maintainable, user-focused solutions.

SKILLS

- **Languages:** TypeScript, JavaScript, Python
- **Frontend:** React, Next.js, Vue, Nuxt, React Native, lit-elements
- **State & data:** Redux Toolkit, RTK Query, React Query, Zustand, Context API, Axios
- **Styling:** Tailwind, styled-components, MUI, Mantine, Ant Design, SASS, CSS Modules, Storybook, Bootstrap
- **Tooling & tests:** Webpack, Vite, React Testing Library, Protractor, Unit Testing, Git
- **Project Management:** JIRA

EXPERIENCE

Softzen
Jul 2025 - Jun 2026

Frontend Developer — *Istanbul*

- Rebuilt oley.com, a widely used Turkish sports betting platform, from scratch in Next.js as one of four frontend developers, establishing the codebase structure, shared components, data layer, and CI/CD pipelines for development, testing, and production environments.
- Developed features for a separate back-office single-page application used by staff for customer support, asset and document management, data ingestion, and reporting.

Immfly
Feb 2022 - Feb 2025

Frontend Developer — *Istanbul*

- Built and maintained a multi-tenant React application and shared component library for passenger in-flight entertainment, supporting phones, tablets, and laptops over in-plane Wi-Fi.
- Shipped airline-specific features and components on the shared platform for 10+ airlines, including Pegasus, TUI, Iberia Express, and Avianca, alongside per-airline branding, onboarding, and landing pages.
- Redesigned high-traffic pages with UI/UX and backend teams to deliver a more app-like experience, and built a design system that kept the interface consistent across airlines and devices.
- Built and maintained the React Native retail app that cabin crew use for onboard inventory and sales on mobile and POS devices.

Garanti BBVA Technology (via OBSS)
Oct 2021 - Jan 2022

Frontend Developer — *Istanbul*

- Built multiple frontend proof-of-concept applications for a new Garanti BBVA trading platform as the sole frontend developer on a cross-functional team.
- Evaluated React, Vue, and lit-elements and presented options to the team and the architecture board.

Boyner Grup
Oct 2020 - Oct 2021

Frontend Developer — *Istanbul*

- Built and maintained checkout and payment UI for Boyner's e-commerce web platform (Vue / Nuxt).
- Built Boyner NOW last-mile delivery UI and dynamic installment options by product type and bank.
- Worked on a live storefront modernization across Boyner, Morhipo, and Altınyıldız Classics using React and Next.js.

Bermuda Technologies
Nov 2019 - Oct 2020

Frontend Developer — *Istanbul*

- Developed the EHesapp multi-bank activity dashboard and its component library using Storybook and Atomic Design.
- Developed a web application for a waybill platform used by accountants and integrated with the Revenue Administration of the Government of Turkey.
- Developed the Amax Insurance company page and a web application for property and vehicle estimate brokerage.

İstanbul Bilgi University
Feb 2016 - Nov 2019

Research and Teaching Assistant — *Istanbul*

- Built video action-recognition benchmarks (CNN / LSTM with Keras and TensorFlow) for research papers, using ffmpeg and OpenCV for video processing.
- Conducted lab sessions, recitations, and lectures, and prepared homework, quizzes, and exams for the Computer Engineering department.

EDUCATION

Sabancı University
Sep 2008 - Jun 2014

BSc, Computer Science and Engineering — *Istanbul, Türkiye*
